The scalar projection (or scalar component) of a Euclidean vector a in the direction of a Euclidean vector b is given by $a \cos \theta$, where θ is the angle between a and b . In terms of the geometric definition of the dot product, this can be rewritten $a \cdot \hat{b}$, where $\hat{b} = b / |b|$ is the unit vector in the direction of b .

Dot product - Wikipedia

René Descartes was born in La Haye en Touraine (now Descartes, Indre-et-Loire), France, on 31 March 1596. His mother, Jeanne Brochard, died soon after giving birth to him, and so he was not expected to survive. Descartes' father, Joachim, was a member of the Parlement of Brittany at Rennes. René lived with his grandmother and with his great-uncle.
