Documentary photography usually refers to a popular form of photography used to chronicle events or environments both significant and relevant to history and historical events as well as everyday life. It is typically covered in professional photojournalism, or real life reportage, but it may also be an amateur, artistic, or academic pursuit.

A documentary film is a nonfictional motion picture intended to document some aspect of reality, primarily for the purposes of instruction, education, or maintaining a historical record. Such films were originally shot on film stock—the only medium available—but now include video and digital productions that can be either direct-to-video, made into a TV show, or released for screening in ...

Note: Among the UFO cases presented in this documentary, is the one by flight Japan Airlines JAL-1628 over Alaska in 1986. The Japanese pilot Captain Terauchi lost his flying status for reporting the incident to the public, but 15 years later, the story was corroborated by John Callahan, retired Division Chief of the Accidents and Investigations Branch of the FAA.
