Within evolutionary biology, signalling theory is a body of theoretical work examining communication between individuals, both within species and across species. The central question is when organisms with conflicting interests, such as in sexual selection, should be expected to provide honest signals (no presumption being made of conscious intention) rather than cheating.

What We Do . We offer Human Factors consulting services across all phases of system development and procurement by understanding how future end users will think and act under pressure and stress, interact with technology and with each other in teams and groups and make errors of judgment or lapses of attention when engaged in their work.

In the twenty-first century, new technologies have emerged that enable companies as varied as Amazon, the  
British supermarket chain Tesco, Bank of America, Hitachi, and the management consultants Deloitte to  
achieve continuous oversight of their workersâ€™ behavior.
