the dialectical behavior therapy pdf

Dialectical behavior therapy (DBT) is an evidence-based psychotherapy designed to help people suffering from borderline personality disorder. It has also been used to treat mood disorders as well as those who need to change patterns of behavior that are not helpful, such as self-harm, suicidal ideation, and substance abuse. This approach works towards helping people increase their emotional and ...

Cognitive Behaviour Therapy

Description. Mainstream cognitive behavioral therapy assumes that changing maladaptive thinking leads to change in behavior and affect, but recent variants emphasize changes in one's relationship to maladaptive thinking rather than changes in thinking itself. The goal of cognitive behavioral therapy is not to diagnose a person with a particular disease, but to look at the person as a whole and ...
