Chemicals can be found in many of the products we use in our everyday lives. Some chemicals pose risks to humans and the environment. Under the Toxic Substances Control Act (TSCA) and the Pollution Prevention Act, EPA evaluates potential risks from new and existing chemicals and finds ways to ...

Chemicals under the Toxic Substances Control Act (TSCA)

In production, research, retail, and accounting, a cost is the value of money that has been used up to produce something or deliver a service, and hence is not available for use anymore. In business, the cost may be one of acquisition, in which case the amount of money expended to acquire it is counted as cost. In this case, money is the input that is gone in order to acquire the thing.

A cost centre is a department within a business to which costs can be allocated. The term includes departments which do not produce directly but incur costs to the business, when the manager and employees of the cost centre are not accountable for the profitability and investment decisions of the business but they are responsible for some of its costs.
